# PROSPECTUS

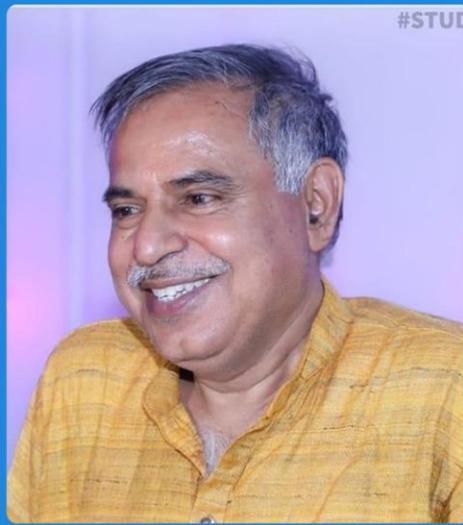

**Prof. Mahadev Lal Shroff was a visionary educationist and a pioneer in the field of pharmaceutical education and training in India. He played a crucial role in laying the foundation for modern pharmacy education, emphasizing high academic standards, professional ethics, and practical training. Prof. Shroff strongly advocated the integration of scientific knowledge, research, and industry-oriented skills in pharmacy curricula to produce competent and socially responsible pharmacists. His efforts significantly contributed to the development of pharmacy institutions, academic frameworks, and professional recognition of pharmacy education in the country. Owing to his remarkable contributions, he is widely regarded as one of the architects of pharmaceutical education in India, and his vision continues to inspire generations of pharmacy students, educators, and professionals.**

## Director Message !

**It gives me immense pleasure to welcome you to our Pharmacy College, an institution committed to excellence in pharmaceutical education, research, and professional development. In today's rapidly evolving healthcare environment, the role of a pharmacist has expanded beyond dispensing medicines to becoming an integral part of the healthcare system.**

**Our college strives to nurture competent, skilled, and ethically responsible pharmacy professionals who can meet global challenges with confidence and dedication.**

**We provide a student-centric learning environment supported by experienced faculty, modern laboratories, industry-oriented training, and continuous academic mentoring.**

**Our focus is not only on academic excellence but also on the overall personality development of students through co-curricular activities, research exposure, and professional skill enhancement programs.**

**We strongly believe in innovation, discipline, and integrity as the core values that shape successful professionals. I extend my best wishes to all aspiring students and assure you that our institution will provide every opportunity for your academic growth, professional competence, and personal development. Together, let us work towards building a healthier and better society through quality pharmaceutical education.**

# About the College

The college campus is situated at the heart of lush green surrounding in the peaceful atmosphere of learning and assimilation. All the basic amenities and facilities are available. The campus is easily approachable by road transport and rail route.

The building has ample space, giving way to natural light and ventilation. The campus is spread in 15 acres of land with about 50000 Sq. ft of carpet area with all the needed fittings and fixtures.

We provide all the appropriate courses of study focusing on new ideas and skills in the concerned courses. The conceptual knowledge is provided through highly qualified and experienced academic staffs. For the students and the faculties for updation of advance knowledge, the college is ready with rich and updated library. For practical knowledge there are well equipped and furnished laboratories.

Apart from all these we facilitate-

- to improve students personality for their brighter career
- to work together to archive increased confidence and capabilities of doing things
- to train students to improve creativity and technical skills.
- to provide combination of practical learning in hospitals and laboratories for experiential knowledge.

## Location

The college is located just 05 km. away from the main town of Garhwa and 2km. away from the main road of Daltonganj- Shahpur-Garhwa route. The town is well connected by rail road and frequent bus services. The railway station and the bus stand are just 5 kms. away from the campus.

# Objectives of the course (Pharmacy)

The objective of the Pharmacy course is to provide strong theoretical knowledge and practical training in pharmaceutical sciences, develop professional skills, ethical values, and scientific thinking, and prepare competent pharmacists to serve effectively in healthcare, industry, and community pharmacy sectors.

## -: Infrastructure :-

Excellent infrastructure is available to ensure high quality education. The campus is spread over an area of 15 acres with a vast space for educational, sport cultural & co-curricular activities. The environment is serene and conducive to high academic pursuits. Big size classrooms and labs as per Pharmacy Council of India norms.

The institute has highly developed infrastructure with modern labs and fully equipped library.

Pharmaceutical Chemistry Lab

Pharmaceutical Lab

Herbal Garden

Pharmacology Animal House and Green House

Pharma Engineering Lab

Bio Technology Lab

APHE

Biology Lab

Machine Room (Industrial Lab)

Computer Lab

Model Drug Store

Balance Room

Girls Common Room

Drug Museum

Display Museum

Boys Common Room

## -: Laboratory & Animal House :-

The Labs are well equipped with all necessary instruments, chemical & re-agents where students can prepare medicines, gels, creams, solutions, lotions, lipsticks, shampoo, soaps, using in house laboratory facilities

Well maintained animal house with rabbits & mice for pharmacological studies on animals.

## -: Library Facility :-

The Library has more than 5000 books. Besides, 10 Journals and periodicals of interest are also available 5 International and more than 105 e-journals.

## -: Model Drug Store :-

The Institute has introduced this new concept in the field of pharmacy. The dummy of model drug store has been developed and maintained to train students for understanding of prescription, dispensing of prescription, bill preparation inventory control, various banking transactions, loan procurement, agency and various laws applicable to pharmacy profession. This will impart practical knowledge to students, which will be helpful in their future life. The training in model drug store is linked with pharmaceuticals subject and marks are awarded on the basis of performance. This system develops the student for future entrepreneurship in pharmacy profession.

## -: HERBAL GARDEN :-

The Institute has a garden for medicinal plants cultivation in the Green House. The two category herbs and shrubs are maintained in Green House and the third category trees, at suitable places separately. The work is in progress and the plant collection is done under the guidance of an expert botanist from agriculture college. Each plant bears a name plate comprising of the local name, botanical name, family, chief chemical constituents and two important uses. The institute also maintains a standard Herbarium of all collected species of plants for future reference of students. The Institute in near future, has planned for commercial cultivation of medicinally important plants in separate place.

## -: OUR SALIENT FEATURES :-
